Key points

- Despite the volatility in August, the September quarter return (3.9%) was strong. This helped boost since-inception return to an exceptional 13.4%.
- Australian Shares (7.8%) led their global counterparts for the quarter while Global Shares - AUD Hedged (32.1%) has been the strongest performer since inception (November 2023).
- Falling interest rates over the quarter (including a bumper 50bps rate cut in the US) helped boost returns for fixed income and listed real assets (infrastructure and property).
