Investment in the Open Class Units of Magellan Global Fund (“Fund”) is offered by Magellan Asset Management Limited ABN 31 120 593 946 AFS Licence No. 304 301 (referred to in this PDS as “Magellan”, the “Responsible Entity”, the “Investment Manager”, “we”, “our” or “us”) in exchange for the redemption of all Closed Class Units in the Fund in connection with the proposal to convert all Closed Class Units in the Fund to Open Class Units in the Fund.

Open Class Units are admitted to trading status on the Securities Exchange under the Securities Exchange Rules with the exchange ticker: MGOC. No representation is made concerning the continued quotation of the Open Class Units on the Securities Exchange.

The information in this PDS is of a general nature only and does not take into account an investor’s personal financial situation or needs. Before making an investment decision based on this PDS, investors should consult a licensed financial adviser to obtain financial advice that is tailored to suit their personal circumstances.

The information in this PDS is subject to change from time-to-time. Information that is not materially adverse information can be updated by the Responsible Entity. Updated information can be obtained through the Fund’s website www.magellangroup.com.au. Investors may request a paper copy of any updated information at any time, free of charge.

The Responsible Entity and its employees, agents or officers do not guarantee the success, repayment of capital or any rate of return on income or capital or the investment performance of the Open Class Units in the Fund. An investor’s investment does not represent deposits or other liabilities of Magellan group companies.

An investment in the Open Class Units is subject to investment risk, which may include possible delays in repayment and loss of income and principal invested. For more information on the risks associated with an investment in the Open Class Units, please refer to Section 7 of this PDS.

This PDS does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation. No action has been taken to register or qualify the Fund in any jurisdiction outside Australia and New Zealand. The distribution of this PDS outside Australia and New Zealand may be restricted by law or regulation in such other jurisdictions. In particular, this PDS may not be distributed to any person, and the Open Class Units may not be offered or issued, in any country outside Australia or New Zealand except to the extent set out in this PDS. Persons who come into possession of this PDS outside Australia and New Zealand should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

Unless identified to the contrary, all references to monetary amounts are to Australian dollars. Capitalised terms have the meanings given to them in the Glossary (refer to Section 13).

Target Market Determination: The Target Market Determination for the Fund can be found at www.magellangroup.com.au and includes a description of the class of investors that the Fund is likely to be appropriate for.

This Product Disclosure Statement (PDS) accompanies the Unitholder Booklet dated 20 May 2024 which is being sent to unitholders in Magellan Global Fund in connection with a proposal to redeem all of the Closed Class Units in the Magellan Global Fund in consideration for the issue of new Open Class Units in the Magellan Global Fund. It contains important information about Open Class Units, including their benefits and risks. This PDS relates only to the offer and issuance of Open Class Units in connection with the proposed Conversion. Investors who wish to otherwise acquire Open Class Units should refer to the Magellan Global Fund Product Disclosure Statement dated 27 November 2023.

1. Key Features at a glance

On the date of this PDS, Magellan Asset Management Limited as responsible entity of the Magellan Global Fund issued a Unitholder Booklet to Unitholders of the Fund in relation to a proposed conversion of Closed Class Units to Open Class Units (the "Conversion"). This PDS accompanies the Unitholder Booklet.

If all requisite approvals relating to the Conversion are obtained, then on implementation of the Conversion, all Closed Class Units will be redeemed and new Open Class Units will be issued in exchange.

If the Conversion is implemented, there will no longer be any Closed Class Units on issue and the Fund will instead have a single class of units on issue, being the Open Class Units. Below is a summary of the key features of the Open Class Units.

Magellan Global Fund – Open Class Units		For more Information						
Fund name	Magellan Global Fund							
ARSN	126 366 961							
Exchange ticker	MGOE							
Responsible Entity and Investment Manager	Magellan Asset Management Limited ABN 31 120 593 946, AFS Licence No. 304 301	Section 2						
About the Fund	<p>The Fund is a registered managed investment scheme. As at the date of this PDS, the Fund has two unit classes on issue: Open Class Units and Closed Class Units.</p> <p>This PDS is issued in relation to the Open Class Units to be issued upon implementation of the Conversion. Please refer to the Fund's Product Disclosure Statement dated 27 November 2023 found at https://www.magellangroup.com.au in relation to any other investments in Open Class Units.</p> <p>Open Class Units in the Fund have been admitted to quotation on the Securities Exchange under the Securities Exchange Rules. Open Class Units in the Fund are able to be traded on the Securities Exchange like any listed security.</p> <p>The Fund primarily invests in securities of companies listed on stock exchanges around the world. The Fund's portfolio comprises 20 to 40 stocks at any one time but will also have some exposure to cash.</p> <p>The Fund can use foreign exchange contracts to facilitate settlement of stock purchases. It is not the Responsible Entity's intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets.</p>	Section 3 and Section 8						
Investment objective	The investment objectives of the Fund are to achieve attractive risk-adjusted returns over the medium to long-term, while reducing the risk of permanent capital loss.	Section 6 and Section 8						
Asset classes and allocation ranges	<p>The Fund's assets are invested within the following asset allocation ranges:</p> <table border="1"> <thead> <tr> <th>Asset Class</th> <th>Investment Range*</th> </tr> </thead> <tbody> <tr> <td>Global listed securities</td> <td>80%-100%</td> </tr> <tr> <td>Cash and cash equivalents</td> <td>0% - 20%</td> </tr> </tbody> </table> <p>* The asset classes may temporarily fall outside of these ranges in certain circumstances including, but not limited to, as a result of market movements, applications into or withdrawals from the Fund.</p>	Asset Class	Investment Range*	Global listed securities	80%-100%	Cash and cash equivalents	0% - 20%	Section 8
Asset Class	Investment Range*							
Global listed securities	80%-100%							
Cash and cash equivalents	0% - 20%							
Net asset value (NAV)	<p>The Fund's NAV is an estimate of the value of the Fund at the close of trading in each market in which the Fund invests. The estimated NAV per unit for each unit class is the total value of the Fund's NAV attributable to that unit class divided by the number of units on issue in that class.</p> <p>For operational purposes, while the Fund has both Open Class Units and Closed Class Units on issue, the assets and liabilities of the Fund are allocated proportionally between the Open Class Units and Closed Class Units based on their respective net asset values. The calculation of the NAV of a unit class includes the impact of transactions specific to that unit class so that they do not impact the NAV per unit of the other unit class.</p> <p>The estimated NAV per Open Class Unit ("NAV per Unit") is based on the NAV of the Open Class Units divided by the number of Open Class Units on issue at the end of each Business Day.</p> <p>An indicative NAV per Unit ("iNAV") will be published by the Fund throughout the Trading Day. The iNAV will be updated for foreign exchange movements in the Fund's portfolio stocks by individual domicile and will also be updated in respect of portfolio securities that have live market prices during the Trading Day or, where they do not have live market prices, may be updated for equivalent securities or movements in after-market trading as determined by the Responsible Entity.</p>	Section 3						

Entering and exiting Open Class Units in the Fund	<p>Eligible Closed Class Unitholders will be issued Open Class Units upon implementation of the Conversion.</p> <p>Investors can exit the Open Class Units issued to them either by directly making a withdrawal request to the Responsible Entity using a Withdrawal Form or by selling Open Class Units on the Securities Exchange. You need to hold your Open Class Units on the issuer sponsored sub-register to make a withdrawal request directly to the Responsible Entity. Your stockbroker can assist you with this process if you hold your Open Class Units on a Holder Identification Number ("HIN").</p> <p>There are important differences between exiting the Open Class Units via the Securities Exchange or by withdrawing Open Class Units directly with the Responsible Entity. These differences include, but are not limited to, the exit price you will receive. An investor who withdraws Open Class Units directly with the Responsible Entity is likely to receive a different price for Open Class Units in the Fund to an investor who sells Open Class Units on the Securities Exchange at the exact same time. These differences in prices received by investors may result in a different return from an investment in the Open Class Units of the Fund.</p>	Section 3, 4 and 5
Liquidity in Open Class Units	<p>The Responsible Entity, on behalf of the Fund, may provide liquidity to investors on the Securities Exchange by acting as a buyer and seller of Open Class Units. At the end of each Trading Day, the Responsible Entity will create or cancel Open Class Units by applying for or withdrawing its net position in Open Class Units bought and sold on the Securities Exchange.</p> <p>The Responsible Entity has appointed a market participant to transact and facilitate settlement on its behalf.</p> <p>There may be circumstances where:</p> <ul style="list-style-type: none"> • withdrawals have been suspended in accordance with the Constitution or the Fund is not liquid (as defined under the Corporations Act). In such circumstances, Open Class Units in the Fund may continue to trade on the Securities Exchange provided that the Fund, in respect of the Open Class Units, continue to comply with the Securities Exchange Rules. If the Fund, in respect of the Open Class Units, cease to comply with the Securities Exchange Rules, the Responsible Entity may seek a trading halt or the Securities Exchange Operator may suspend trading of Open Class Units in the Fund on the Securities Exchange; or • the Securities Exchange Operator suspends trading of Open Class Units in the Fund on the Securities Exchange. In such circumstances, investors may continue to withdraw directly with the Responsible Entity unless withdrawals have also been suspended in accordance with the Constitution. 	Section 3 and Section 4
Distributions	Distributions will generally be made semi-annually but may be made more or less frequently at the discretion of the Responsible Entity.	Section 3
Fees and other costs	Please refer to Section 9 for a detailed explanation of fees and costs.	Section 9
Risks	All investments are subject to risk. The significant risks associated with the Fund are described in this PDS.	Section 7
Cooling-off and complaints	Cooling-off rights do not apply to Open Class Units in the Fund issued upon implementation of the Conversion however a complaints handling process has been established.	Section 12
General information and updates	Further information, including any updates issued by the Responsible Entity and other statutory reports, can be found at: www.magellangroup.com.au .	Section 12
Holding statements	Eligible Closed Class Unitholders will receive holding statements from the Registry in relation to the Open Class Units issued to them following the implementation of the Conversion	Section 3
Annual tax reporting	Annual tax statements will be made available in respect of the Fund.	Section 11

2. About Magellan Asset Management Limited

Magellan Asset Management Limited (the “Responsible Entity”, “Investment Manager”, “Magellan”, “we”, “our” or “us”) is the Responsible Entity and Investment Manager for the Fund. As Responsible Entity, we are responsible for the overall operations of the Fund.

Magellan is a wholly owned subsidiary of Magellan Financial Group Ltd, which is listed on the ASX.

3. About the Magellan Global Fund and Open Class Units

On the date of this PDS, the Fund issued a Unitholder Booklet to Unitholders of the Fund in relation to the Conversion.

If all requisite approvals relating to the Conversion are obtained, then on implementation of the Conversion, all Closed Class Units will be redeemed and new Open Class Units will be issued in exchange.

If the Conversion is implemented, Closed Class Units will no longer be on issue and the Fund will have a single class of units on issue, being the Open Class Units.

This PDS is issued in relation to an investment in the Open Class Units and specifically in respect of Open Class Units to be issued on implementation of the Conversion.

When investors make an investment in the Fund, their money is pooled together with other investors’ money. The Investment Manager uses this pool to buy investments and manage them on behalf of all investors in the Fund in accordance with the Fund’s investment strategy. By investing in the Fund, investors have access to the investment expertise and insights of the investment team.

At the date of this PDS the Fund has two unit classes on issue: Open Class Units and Closed Class Units. Both Open Class Units and Closed Class Units confer on its holder an undivided absolute, vested and inalienable beneficial interest in the Fund as a whole, subject to the Fund’s liabilities, not in parts of or single assets. A Fund unitholder holds a unit in the Fund subject to the rights and obligations attaching to that unit.

Open Class Units and NAV per Unit

The Open Class Units in the Fund are admitted to quotation on the Securities Exchange and the Open Class Units are able to be traded on the Securities Exchange in a similar fashion to listed securities, subject to liquidity.

The Fund’s NAV is an estimate of the value of the Fund at the close of trading in each market in which the Fund invests. The estimated NAV per unit for each unit class is the total value of the Fund’s NAV attributable to that unit class divided by the number of units on issue in that class.

For operational purposes, while the Fund has both Open Class Units and Closed Class Units on issue, the assets and liabilities of the Fund are allocated proportionally between the Open Class Units and Closed Class Units based on their respective net asset values. The calculation of the NAV of a unit class will include the impact of transactions specific to that unit class so that they do not impact the NAV per unit of the other unit class.

The NAV per Unit is published daily on the Fund’s website at www.magellangroup.com.au. The NAV per Unit may fluctuate each day as the market value of the Fund’s assets rises or falls. The Responsible Entity’s NAV Permitted Discretions Policy provides further information about how the NAV per Unit is calculated. Investors can request a copy of the policy free of charge by calling the Responsible Entity on +61 2 9235 4888.

The Responsible Entity has engaged an agent to calculate and disseminate an indicative NAV per Unit (“iNAV”) which is published on the Fund’s website at www.magellangroup.com.au throughout the Trading Day. The iNAV is updated for foreign exchange movements in the Fund’s portfolio stocks by individual domicile and will also be updated in respect of portfolio securities that have live market prices during the Trading Day, or where they do not have live market prices, may be updated for equivalent securities or movements in after-market trading as determined by the Responsible Entity. No assurance can be given that the iNAV will be published continuously or that it will be up to date or free from error. To the extent permitted by law, neither the Responsible Entity nor its appointed agent shall be liable to any person who relies on the iNAV.

The price at which units trade on the Securities Exchange may not reflect either the NAV per Unit or the iNAV. See “Securities Exchange liquidity” in Section 4 for more details.

Exiting Open Class Units in the Fund

Investors can exit the Open Class Units issued to them as part of the Conversion either by directly making a withdrawal request to the Responsible Entity using a Withdrawal Form or by selling Open Class Units on the Securities Exchange. You need to hold your Open Class Units on the issuer sponsored sub-register to make a withdrawal request directly to the Responsible Entity. Your stockbroker can assist you with this process if you hold your Open Class Units on a HIN.

The following table sets out the key differences between exiting the Open Class Units via the Securities Exchange or withdrawing Open Class Units directly from the Fund. This is a summary only. For more information on withdrawing Open Class Units directly with the Responsible Entity, see Section 5.

	Selling Open Class Units on the Securities Exchange	Withdrawing Open Class Units directly with the Responsible Entity
How do I withdraw my investment?	<p>You can withdraw from the Open Class Units at any time by selling Open Class Units on the Securities Exchange via your stockbroker.</p> <p>Your sale of Open Class Units will be settled via the CHESSE settlement service, generally two Business Days following your sale.</p>	<p>You can make a withdrawal of your investment in the Open Class Units by sending a correctly completed Withdrawal Form to our Unit Registry. You can request a specified dollar amount to be withdrawn, a specified number of Open Class Units to be withdrawn, or a full withdrawal of your investment in the Fund.</p> <p>To withdraw, you must hold your Open Class Units on the Fund's issuer sponsored sub-register and provide your Securityholder Reference Number ("SRN"). You will also be required to provide certified copies of identification documentation via post to the Unit Registry (if you have not done so previously). Your correctly completed Withdrawal Form and identification documentation (if applicable) must be received by 2.00pm (Sydney time) on that Business Day.</p> <p>Payment of your withdrawal proceeds will usually be paid two Business Days following your withdrawal. You can usually expect to receive payment into your nominated bank account within seven Business Days.</p>
At what price can I sell my Open Class Units in the Fund?	<p>Your exit price will be the price at which you sold your Open Class Units on the Securities Exchange.</p> <p>You will receive a transaction confirmation from your stockbroker informing you of this price. You may incur customary brokerage fees and commissions when you sell Open Class Units. Investors should consult their stockbroker for further information on their fees and charges.</p>	<p>Your exit price will be the exit unit price applicable to the Business Day on which we receive your correctly completed Withdrawal Form by the applicable cut-off times for that Business Day.</p> <p>The exit price reflects the NAV per Unit less an allowance for transaction costs incurred by the Fund. The NAV per Unit estimates the value of the Fund's Open Class Units based on the value of the Fund's Open Class Units at the close of trading in each market in which the Fund invests.</p> <p>On any given Business Day, the NAV per Unit will generally differ from the closing price of Open Class Units on the Securities Exchange as the Fund invests in overseas markets and the close of trading in those markets on a given Business Day may not occur until the following day in Australia.</p> <p>If you do not meet the cut-off times you will receive the exit price for the following Business Day, subject to your withdrawal request meeting the applicable cut-off times for that Business Day.</p>
Is there a minimum number of Open Class Units I need to withdraw?	<p>No. There is no minimum number of Open Class Units applicable to either the sale of Open Class Units on the Securities Exchange or withdrawal of Open Class Units directly with the Responsible Entity. No minimum balance applies to investments in the Fund.</p>	

Restrictions on withdrawals

Withdrawals or switching of Open Class Units may be suspended by us for up to 28 days including where:

- it is impracticable for the Responsible Entity to calculate the NAV of the Open Class Units, for example, because of an inability to value the assets of the Fund or due to the closure of or trading restrictions or suspensions of securities exchanges on which any significant portion of the investments of the Fund is listed, quoted or traded;
- the payment of withdrawal proceeds involves realising a significant portion of the Fund's assets which would, in our opinion, result in remaining investors bearing a disproportionate amount of capital gains tax or expenses, or suffering any other disadvantage including a material diminution of the value of the Fund's assets or departure from the investment strategy of the Fund;
- we reasonably consider it would be in the interests of investors or an affected class of investors;
- it is otherwise permitted by law; or
- where we receive withdrawal requests of an aggregate value that in our reasonable estimate would require the sale of 5% or more of the Fund's assets.

The withdrawal process, including the calculation of the NAV per Unit, applies only when the Fund is 'liquid' (within the meaning given to that term in the Corporations Act). Where the Fund ceases to be liquid, Open Class Units may only be withdrawn pursuant to a withdrawal offer made to all investors in the Fund in accordance with the Constitution and the Corporations Act. We are not obliged to make such offers.

Where withdrawals or switches have been suspended, Open Class Units in the Fund may continue trading on the Securities Exchange provided that the Fund continues to comply with the Securities Exchange Rules. If the Fund ceases to comply with the Securities Exchange Rules, the Securities Exchange Operator may suspend trading of Open Class Units in the Fund on the Securities Exchange.

Compulsory withdrawals

The Responsible Entity may withdraw some or all of an investor's Open Class Units without asking them in accordance with the Constitution or as permitted by law. As an example, this may occur where an investor breaches their obligations to the Responsible Entity (for example, where the Responsible Entity believes that the Open Class Units are held in breach of prohibitions contained within the Constitution) or where the Responsible Entity believes that the Open Class Units are held in circumstances which might result in a violation of an applicable law or regulation.

Transfer and conversion of Open Class Units

Your stockbroker will initiate the conversion or transfer of Open Class Units in the following scenarios:

- You hold Open Class Units directly with the Fund (SRN holding on the issuer sponsored sub-register) and wish to convert or transfer your Open Class Units to an account with a stockbroker (HIN holding on the CHESS sub-register). You will need to provide your stockbroker with your SRN. You can only convert or transfer whole Open Class Units and any partial Open Class Unit holding remaining after the conversion or transfer will be cancelled and become property of the Fund.
- You hold Open Class Units in an account with your stockbroker (HIN holding on the CHESS sub-register) and wish to transfer your Open Class Units to another HIN or to transfer or convert your units to an account directly with the Fund (SRN holding on the issuer sponsored sub-register).

The Unit Registry handles transfers of Open Class Units for investors who hold units directly with the Fund (SRN holding on the issuer sponsored sub-register) and wish to transfer to another existing account or a new account directly with the Fund. We require original copies of standard transfer forms to be mailed to us. We are unable to process transfer forms that are faxed, emailed or photocopied.

Distributions

The Responsible Entity intends to target a cash distribution yield of 4% per annum of the average of the month-end NAV per Unit over the two year rolling period ending on the last Business Day of the prior distribution period ("**Target Cash Distribution**"). The Responsible Entity has the discretion to distribute an amount higher than the Target Cash Distribution.

The distribution in respect of the Open Class Units will be paid semi-annually (for the periods ending 30 June and 31 December of each year) although the Fund may make distributions more or less frequently at the discretion of the Responsible Entity. The Responsible Entity intends to announce the proposed Target Cash Distribution per Open Class Unit on the announcements platform of the Securities Exchange Operator at the beginning of each distribution period. Additionally, the Responsible Entity intends to announce the final distribution per Open Class Unit, and the distribution timetable, on the announcements platform of the Securities Exchange Operator prior to, or around the time of, the end of each distribution period. The Responsible Entity considers that these announcements will provide Unitholders with greater certainty on the proposed amount of upcoming distributions.

The distribution may comprise an amount attributed to you from income (such as dividends received from shares and interest) less expenses incurred by the Fund (such as management and performance fees) plus net capital gains made on the sale of shares or other investments held. In some circumstances, the Fund may distribute a payment out of the capital invested in addition to a distribution of net income or net capital gains, or where the Fund has not generated any net income or net capital gains during the income year.

To be eligible to receive a distribution in respect of an Open Class Unit for a distribution period, you must:

- hold that Open Class Unit on the last day of the distribution period; or
- have purchased (either on-market or off-market) that Open Class Unit on or before the last day of the distribution period; or
- have applied directly with the Responsible Entity using an Application Form for that Open Class Unit on or before the last day of the distribution period.

You will not be eligible to receive a distribution in respect of a distribution period on an Open Class Unit you have sold or withdrawn on or before the last day of the distribution period. The distribution is not calculated on a pro-rata basis according to the time that Unitholders have held their Open Class Units.

Under the AMIT rules, investors will be assessed for tax on the income of the Fund attributed to them. Where the income of the Fund exceeds the amount of the distribution paid to investors ("**Excess**"), the Responsible Entity may, in a particular year, retain or accumulate in the Fund the amount of the Excess. In this scenario, the income of the Fund that is attributed to you (and that must be included in your income tax return) will be more than the cash distribution paid to you. The tax cost base of your units will increase to the extent of the Excess. For more details, see the Taxation overview in Section 11.

We will send you a tax statement after the end of each financial year detailing the amounts attributed to you to assist in the preparation of your tax return.

You can choose to have your distributions directly credited to your Australian or New Zealand bank account or, to the extent that the Responsible Entity offers a Distribution Reinvestment Plan ("**DRP**"), automatically reinvested as additional Open Class Units in the Fund. No fees or transaction costs will be payable in respect of distributions that are automatically reinvested. The DRP Rules require that additional units issued to investors will be rounded to the nearest whole number. If you have provided a New Zealand bank account, the conversion of your Australian dollar distribution to New Zealand dollars will be processed by the Fund's bank at the exchange rate prevailing at the processing time. Please be aware that distributions will be paid to you in cash unless you instruct us otherwise.

Details in relation to each distribution will be published on the announcements platform of the Securities Exchange Operator and the Fund's website at www.magellangroup.com.au. The distribution policy of the Fund is current as at the date of this PDS and may be subject to change from time to time.

Distribution Reinvestment Plan

The Responsible Entity has established a DRP in respect of distributions made by the Open Class Units in the Fund. In respect of each distribution, the Responsible Entity may elect to offer or not offer the DRP. Under the DRP, a Unitholder may elect to have all, or part of the distribution reinvested as additional Open Class Units in the Fund. The additional units will be issued at a price equal to the NAV per Unit, as provided in the DRP Rules. The DRP Rules provide detail on the methodology for determining the price at which Open Class Units are issued to Unitholders and can be found at www.magellangroup.com.au.

Previous elections to participate in a distribution reinvestment plan made by Closed Class Unitholders will be treated as having been made in respect of the Open Class Unit DRP following implementation of the Conversion. Changes to these previous elections, or new elections, to participate in the DRP in respect of the relevant distribution must be made by the election date announced by the Responsible Entity in respect of each relevant distribution.

4. Selling Open Class Units on the Securities Exchange

Selling your Open Class Units on the Securities Exchange

Investors can sell their Open Class Units in the Fund via their stockbroker. Investors who sell Open Class Units on the Securities Exchange do not need to complete a Withdrawal Form and they will receive the proceeds from the sale of their Open Class Units in the same way they would receive proceeds from the sale of listed securities via the CHESSE settlement service.

There is no minimum number of Open Class Units that investors can sell on the Securities Exchange. An investor's exit price will be the price at which they have sold Open Class Units on the Securities Exchange. Investors can only sell whole Open Class Units on the Securities Exchange and any residual partial Open Class Unit holdings will be cancelled and the property attributable to the partial Open Class Unit will become the property of the Fund.

Securities Exchange liquidity

Investors can sell Open Class Units on the Securities Exchange to other investors in the secondary market in the same way as for any other listed securities.

The Responsible Entity, on behalf of the Fund, may provide liquidity to investors on the Securities Exchange by acting as a buyer and seller of Open Class Units. At the end of each Trading Day, the Responsible Entity will create or cancel units by applying for or withdrawing its net position in Open Class Units bought or sold on the Securities Exchange. The Responsible Entity's appointed agent will act on behalf of the Responsible Entity to transact and facilitate settlement on its behalf.

The price at which the Responsible Entity may buy or sell Open Class Units will reflect the Responsible Entity's view of NAV per Unit (as referenced by the iNAV), market conditions, an allowance to cover transaction costs and supply and demand for Open Class Units during the Trading Day.

Unitholders will bear the risk of any transactions undertaken by the Responsible Entity on the Fund's behalf on the Securities Exchange, which may result in either a cost or a benefit to the Open Class Units in the Fund. The risks of providing liquidity on the Securities Exchange are explained in Section 7.

5. Withdrawing Open Class Units directly with the Responsible Entity

Withdrawing directly from the Fund

If you hold your Open Class Units on the Fund's issuer sponsored sub-register then, subject to the Constitution, the Corporations Act and the Securities Exchange Rules, you can apply directly to the Responsible Entity to withdraw some or all of your investment at any time. As at the date of this PDS, no minimums apply to withdrawal requests and there is no minimum account balance. To withdraw some or all of your investment, please send a correctly completed Withdrawal Form to our Unit Registry. You can request a specified dollar amount to be withdrawn, a specified number of Open Class Units to be withdrawn, or a full withdrawal of your investment in the Fund. The exit price for an investor who withdraws directly from the Fund will be the NAV per Unit less an allowance for transaction costs incurred by the Fund.

On the Withdrawal Form you will be required to provide your SRN or your investor number.

If you hold your Open Class Units via a stockbroker (and your Open Class Units are associated with a HIN, then you hold your Open Class Units on the CHESSE sponsored sub-register. If you want to withdraw directly from the Fund, you will first need to submit a request to your stockbroker to have your units converted to an issuer-sponsored holding so that an SRN can be allocated to you by the Unit Registry. The process of converting your broker-sponsored holding to an issuer-sponsored holding is managed by your stockbroker and is subject to their standard processing times. Please contact your stockbroker for further information.

We will accept withdrawal requests via fax, email or mail, except if you are required to provide identification documentation in connection with your Withdrawal Form, in which case we will only accept your request via mail. You will be required to supply certain identification documentation as part of your correctly completed Withdrawal Form (if you have not previously supplied identification documentation to the Unit Registry). All instructions to withdraw should be signed by the nominated authorised signatory or signatories. Under some circumstances, we may need to contact you to request further documentation to confirm the validity of your instruction. This may delay processing of the withdrawal request.

If we receive your correctly completed Withdrawal Form before 2.00pm (Sydney time) on a Business Day on which your Open Class Units are held on the Fund's issuer-sponsored sub-register, we will calculate the amount of your withdrawal using the exit price applicable to that Business Day. If we receive your withdrawal request after 2.00pm on a Business Day on which your Open Class Units are held on the Fund's issuer-sponsored sub-register, we will use the following Business Day's exit price.

Under the Constitution, the Responsible Entity may set a minimum withdrawal amount and minimum account balance. If a minimum account balance applies and your withdrawal request results in your remaining investment in the Fund held on the issuer sponsored sub-register falling below the minimum account balance, we may require you to withdraw your entire balance held on the issuer-sponsored sub-register. As at the date of this PDS, the Responsible Entity has determined that there is no minimum number of Open Class Units applicable to either the sale of Open Class Units on the Securities Exchange or withdrawal of Open Class Units directly with the Responsible Entity. Additionally, no minimum balance applies to investments in the Fund.

Example – Withdrawal request for Open Class Units

Withdrawal request	\$10,000	Amount you are investing in the Fund.
Exit price applicable to your withdrawal	\$2.6147 ¹	Exit price is the NAV per Unit less the sell spread of 0.07% ¹ .
Open Class Units withdrawn based on the exit price	3,824.5305	

¹ Assumes the NAV per Unit for that given Business Day of \$2.6165, adjusted for transaction costs.

Payment of your withdrawal proceeds

You can usually expect to receive payment into your nominated bank account within seven Business Days after our receipt and acceptance of your withdrawal request. However, during July of each year, or at any other time when the Fund is processing a distribution, payment of your withdrawal may be delayed by up to 15 Business Days. There may be other circumstances, such as a freeze on withdrawals or where the Fund is not liquid (as defined under the Corporations Act), where your ability to withdraw from the Fund is restricted and you may have to wait a period of time before you can withdraw some or all of your investment.

We can only pay withdrawal proceeds to an Australian or New Zealand bank account held in the name of the investor. We are unable to pay withdrawal proceeds to a third party bank account. Normally we will pay withdrawal proceeds to the bank account nominated on your Withdrawal Form or alternatively the bank account on file with the Unit Registry. For withdrawal proceeds paid to New Zealand bank accounts, the conversion of your Australian dollar proceeds to New Zealand dollars will be processed by the Fund's bank at the exchange rate prevailing at the processing time.

We will send you a confirmation of your withdrawal once it has been processed and paid.

Switches

If you hold Open Class Units directly with the Fund (SRN holding on the issuer sponsored sub-register) you are able to switch all or part of your investment to another fund managed by Magellan. A switch is a withdrawal from one Magellan fund and an application into another. If we receive your switch instruction before 2.00pm (Sydney time) on a Business Day, we will usually process the switch using the entry and exit prices applicable to that Business Day. If we receive your request after 2.00pm, we will usually process it using the following Business Day's unit prices. In circumstances where the calculation of unit prices is delayed for any reason, including while we are determining and processing distributions, we have the discretion to defer the processing of switches until unit pricing has resumed. We will accept switch requests via fax, email or mail, except if you are required to provide identification documentation in connection with your switch, in which case we will only accept your request via mail. You will be required to supply certain identification documentation as part of your switch request (if you have not previously supplied identification documentation to the Unit Registry).

Instructions to switch should be signed by the nominated authorised signatory or signatories. Under some circumstances, we may need to contact you to request further documentation to confirm the validity of your instruction. This may delay processing of the switch request. We are unable to process switches out of a Fund whilst restrictions on withdrawals apply. If you hold Open Class Units in the Fund via a stockbroker, you will need to submit a request to your stockbroker to have your Open Class Units converted to an issuer-sponsored holding before you can make a switch request.

Indirect Investors

We authorise the use of this PDS as disclosure to Closed Class Unitholders who have accessed Closed Class Units in the Fund indirectly through an IDPS or IDPS-like scheme (commonly referred to as a master trust or wrap account). These investors are referred to as "Indirect Investors".

Indirect Investors do not become registered holders of Open Class Units issued in connection with the Conversion, nor do they acquire the rights of a registered investor in Open Class Units. Instead, as the master trust or wrap account operator will hold the Open Class Units on your behalf, it will acquire the rights of investors. In most cases, references to 'you' or 'your' in the PDS (for example, receiving distribution income, reinvestment distribution income and withdrawals) is a reference to the master trust or wrap account operator and accordingly their arrangements with you will set out your rights. We do not keep personal information about Indirect Investors.

Further, some provisions of the Fund's Constitution will not be relevant to you. For example, you will generally not be able to attend meetings, or withdraw investments directly. You will receive reports from the master trust or wrap account operator, not us. The master trust or wrap account operator can exercise (or decline to exercise) those rights in accordance with the arrangements governing the operation of the master trust or wrap account.

Enquiries about the Fund should be directed to your licensed financial adviser, master trust or wrap account operator.

6. Benefits of investing in the Fund

Significant features

The Fund's primary investment objective is to achieve attractive risk-adjusted returns over the medium to long term, while reducing the risk of permanent capital loss.

The Investment Manager aims to invest in companies that have sustainable competitive advantages which translate into returns on capital in excess of their cost of capital for a sustained period of time. The Investment Manager endeavours to acquire these companies at discounts to their assessed intrinsic value.

The Fund's portfolio comprises 20 to 40 investments. The Investment Manager believes such a portfolio will achieve sufficient diversification to ensure the Fund is not overly correlated to a single company, or to industry specific or macroeconomic risks.

It is not the Responsible Entity's intention to hedge the foreign currency exposure of the Magellan Global Fund arising from investments in overseas markets.

Significant benefits

Investing in the Fund offers investors a range of benefits, including:

- access to the Investment Manager's investment expertise and a professionally managed global equity portfolio;
- access to attractive investment opportunities in offshore markets;
- an attractive Target Cash Distribution yield of 4% per annum;
- prudent risk management; and
- participation in any capital appreciation and income distributions of the Fund.

7. Risks of investing in the Fund

All investments carry risk. The likely investment return and the risk of losing money is different for each investment strategy as different strategies carry different levels of risk depending on the underlying mix of assets that make up each fund. Those assets with potentially the highest long-term return (such as equities) may also have the highest risk of losing money in the shorter term.

Risks can be managed but not completely eliminated. It is important that investors in the Fund understand that:

- the value of an investor's investment may rise and fall;
- investment returns will vary and future returns may differ from past returns;
- returns are not guaranteed and there is a risk that investors may lose money on any investment they make; and
- laws affecting an investor's investment in a managed investment scheme may change over time.

The appropriate level of risk for each investor will depend on various factors and may include their age, investment timeframe, where other parts of their wealth are invested and their overall tolerance to risk. Investors should consult their stockbroker or licensed financial adviser to better understand the risks involved in investing in the Fund.

In addition, if the Conversion is implemented, the Open Class Units will be the only outstanding class of units on issue and the risks set out in this section should be read accordingly. Please refer to section 3 for further details regarding the Conversion.

The significant risks for the Fund and Open Class Units are:

Company specific risk: Investments by the Fund in a company's securities will be subject to many of the risks to which that particular company is itself exposed. These risks may impact the value of the securities of that company. These risks include factors such as changes in management, actions of competitors and regulators, changes in technology and market trends.

Concentration risk: As the Fund will hold a concentrated portfolio of between 20 and 40 securities, returns of the Open Class Units in the Fund may be dependent upon the performance of individual companies. The concentrated exposure may lead to increased volatility in the NAV per Unit and increased risk of poor performance.

Conflicts of interest risk: Either we or our various service providers may from time to time act as issuer, investment manager, secondary market liquidity provider, custodian, unit registry, broker, administrator, distributor or dealer to other parties or funds that have similar objectives to those of the Fund. It is possible that we, or our service providers may have potential conflicts of interest with the Fund. Such conflicts of interest include but are not limited to: management of multiple accounts with varying fee arrangements, trade allocation, proxy voting and staff personal trading. The Investment Manager may invest in, directly or indirectly, or manage or advise other funds which invest in assets which may also be purchased by the Fund. Neither the Investment Manager nor any of its affiliates nor any person connected with it are under any obligation to offer investment opportunities to the Fund.

The Responsible Entity, on behalf of the Fund, acts as a buyer and seller of Open Class Units on the Securities Exchange. A conflict might arise between the Fund and investors buying or selling Open Class Units from the Fund on the Securities Exchange due to the Fund's desire to benefit from such trading activities. A conflict might also arise due to the fact that the Responsible Entity could use such trading activities to influence the perception of the performance of the Fund or discourage selling of Open Class Units as this could reduce the management fee payable to the Responsible Entity.

We maintain a Conflicts of Interest Policy to ensure that we manage our obligations to the Fund such that all conflicts (if any) are resolved fairly.

Counterparty risk: There is a risk that the Fund may incur a loss arising from the failure of another party to a contract (the counterparty) to meet its obligations. Counterparty risk arises primarily from investments in cash and derivatives transactions. Substantial losses can be incurred if a counterparty fails to deliver on its contractual obligations.

Currency risk: As the Fund's investments in international assets will typically be unhedged, a rise in the Australian dollar relative to other currencies will negatively impact investment values and returns. Currency markets can be extremely volatile and are subject to a range of unpredictable forces. It is not the Responsible Entity's intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets.

Derivatives risk: The value of a derivative is derived from the value of an underlying asset and can be highly volatile. Changes in the value of derivatives may occur due to a range of factors that include rises or falls in the value of the derivative in line with movements in the value of the underlying asset, potential liquidity of the derivative and counterparty credit risk.

Distribution policy risk: Under the distribution policy for the Fund, there may be circumstances where the distributions received by investors in cash may be insufficient to cover the tax payable on the income of the Fund attributable to the investor.

Emerging market risk: The Fund invests in the securities of issuers domiciled in foreign jurisdictions, including some countries classified as emerging market countries. As a result, the Fund may be subject to adverse governmental, economic, legal and securities market risks associated with individual foreign markets. Specific risks may include unexpected changes in government or regulatory policy which could reduce trading liquidity and/or increase price volatility of securities, fewer securities holder rights and less protection of property rights. Trading, settlement and custody practices may differ from developed markets and this may result in lower liquidity and counterparty credit risk.

The Fund may invest in companies headquartered in China, including Hong Kong. Risks associated with investments in China include risks related to governmental policies and risks to the economy from trade or political disputes with China's trading partners.

Fund provision of liquidity on the Securities Exchange risk: The Responsible Entity, on behalf of the Fund, may provide liquidity to investors on the Securities Exchange by acting as a buyer and seller of Open Class Units in the Fund. The Responsible Entity has appointed an agent to transact and facilitate the settlement of such transactions on the Fund's behalf. Unitholders will bear the risk of these transactions. There is a risk that Unitholders could suffer a material cost as a result of the Fund providing liquidity to investors on the Securities Exchange which may adversely affect the NAV of the Open Class Units. Such a cost could be caused by either an error in the execution and settlement of transactions or in the price at which Open Class Units are transacted on the Securities Exchange. There is a risk that, if the agent appointed by the Responsible Entity does not fulfil its obligations in a correct and timely manner, Unitholders could suffer a loss.

In order to manage these risks, the Responsible Entity has the right to cease transacting on the Securities Exchange, subject to its obligations under the Securities Exchange Rules, may change the prices at which it transacts on the Securities Exchange and may, where the Responsible Entity considers it appropriate to do so, hedge the Fund's trading activities.

Fund risk: Fund risk refers to specific risks associated with the Fund, such as termination and changes to fees and expenses. The performance of the Fund or the security of an investor's capital is not guaranteed. There is no guarantee that the investment strategy of the Fund will be managed successfully, or that the Fund will meet its investment objectives. Failure to do so could negatively impact the performance of the Fund. An investment in the Fund is governed by the terms of the Constitution and this PDS, each as amended from time to time. The Fund is also governed by the Securities Exchange Rules, and is exposed to risks of quotation on that platform, including such things as the platform or settlements process being delayed or failing. The Securities Exchange may suspend, or remove the Open Class Units from quotation on the Securities Exchange. The Responsible Entity may elect, in accordance with the Constitution and the Corporations Act, to terminate the Fund for any reason.

iNAV risk: The iNAV published by the Fund is indicative only and might not be up to date or might not accurately reflect the underlying value of the Fund. The iNAV may use non-standard pricing sources that are not readily observable as an input, such as after-market prices.

Liquidity of investments risk: Whilst the Fund is exposed to listed securities which are generally considered to be liquid investments, under extreme market conditions, there is a risk that such investments cannot be readily converted into cash or at an appropriate price. In such circumstances, the Fund may be unable to liquidate sufficient assets to meet its obligations, including payment of withdrawals, within required timeframes or it may be required to sell assets at a substantial loss in order to do so.

Market risk: There is a risk that the market price of the Fund's assets will fluctuate. This may be as a result of factors such as economic conditions, government regulations, market sentiment, local and international political events, pandemic outbreaks, environmental and technological issues.

Operational risk: Operational risk includes those risks which arise from carrying on a funds management business. The operation of the Fund may require us, the Custodian, Unit Registry, administrator, the agent appointed by the Responsible Entity to provide liquidity to investors on the Securities Exchange, and other service providers to implement sophisticated systems and procedures.

Some of these systems and procedures are specific to the operation of the Fund. Inadequacies with these systems and procedures or the people operating them could lead to a problem with the Fund's operation and result in a decrease in the value of Open Class Units.

Performance risk: There is a risk that the Fund may not achieve its investment objectives.

Personnel risk: The skill and performance of the Investment Manager can have a significant impact (both directly and indirectly) on the investment returns of the Fund. Changes in key personnel and resources of the Investment Manager may also have a material impact on investment returns of the Fund.

Pooled investment scheme risk: The Fund is a managed investment scheme that pools investors' capital to acquire assets. An investor's voting power will change with the number and value of Open Class Units and Closed Class Units on issue in the Fund and this could result in that investor's voting power being proportionally diluted. Investors will be assessed for tax on their share of net income and net capital gains generated by the Fund that is attributed to them under the AMIT rules. The net income and net capital gains may be a result of the activities of other unitholders in the same unit class, such as withdrawals of Open Class Units (including following implementation of the Conversion, when withdrawals may increase), increased sales of Open Class Units by market participants, or due to actions of the Responsible Entity, such as the provision of liquidity in Open Class Units on the Securities Exchange, buying back Closed Class Units on the Securities Exchange or managing the investments of the Fund.

The market prices at which the Fund is able to invest inflows, or sell assets to fulfil outflows of Open Class Units, may differ from the prices used to calculate the NAV per Unit (and the iNAV). Investors holding Open Class Units may therefore be impacted by other investors entering and exiting the Open Class Units. The impact will depend on the size of inflows or outflows relative to the Open Class Units, and on the price volatility of the securities in which the Fund invests. Inflows and outflows may also affect the taxable income attributed to an investor during a financial year.

Price of Open Class Units on the Securities Exchange: The price at which the Open Class Units may trade on the Securities Exchange may differ materially from the NAV per Unit and the iNAV.

Regulatory risk: There is a risk that a change in laws and regulations governing a security, sector or financial market could have an adverse impact on the Fund or on the Fund's investments. A change in laws or regulations can increase the costs of operating a business and/or change the competitive landscape.

Relative voting power: The Corporations Act requires that, on a vote of the Fund decided by a poll, each Fund unitholder will have one vote for each dollar of value of Open Class Units or (while they remain on issue before the Conversion) Closed Class Units held. The value of Open Class Units and Closed Class Units will be determined based on the last sale price on the Trading Day immediately prior to the day the poll is taken.

Securities Exchange liquidity risk: The liquidity of trading in the Open Class Units on the Securities Exchange may be limited. This may affect an investor's ability to buy or sell Open Class Units on the Securities Exchange. Investors will not be able to buy or sell Open Class Units on the Securities Exchange during any period that the Securities Exchange Operator suspends trading of Open Class Units in the Fund. Further, where trading in the Open Class Units on the Securities Exchange has been suspended, the ability of investors to apply directly to the Responsible Entity to withdraw their investment in the Fund may be suspended and will be subject to the provisions of the Constitution and the Corporations Act.

Open Class Units may be removed from quotation by the Securities Exchange Operator or terminated: The Securities Exchange Rules impose certain requirements for the continued quotation of securities, such as the Open Class Units, on the Securities Exchange. Investors cannot be assured that the Fund will continue to meet the requirements necessary to maintain quotation of the Open Class Units on the Securities Exchange. In addition, the Securities Exchange Operator may change the quotation requirements.

The Responsible Entity may elect, in accordance with the Constitution and Corporations Act, to terminate the Fund for any reason including if Open Class Units cease to be quoted on the Securities Exchange. Information about the Securities Exchange Rules applicable to quotation of Open Class Units in the Fund on the Securities Exchange is set out in Section 10 of this PDS.

Withholding tax reclaim risk: The Fund may file claims to recover excess foreign withholding taxes on dividend and interest income (if any) withheld by issuers from certain countries and capital gains on the disposition of stocks or securities where such withholding tax reclaim is possible. Whether or when the Fund will receive a withholding tax refund is within the control of the tax authorities in such countries and is subject to changes in tax regulation or approach in the respective foreign country. Subsequently, if the likelihood of recovery materially decreases, accruals for the Fund's net asset value for such refunds may be written down partially or in full.

8. The investment objective and strategy

An investment in the Fund may suit investors who are seeking a medium to long-term investment exposure to international equities.

Investment objective	The investment objectives of the Fund are to achieve attractive risk-adjusted returns over the medium to long-term while reducing the risk of permanent capital loss. The Fund aims to deliver 9% p.a. net of fees over the economic cycle.						
Minimum suggested time frame for holding investment	At least 7 to 10 years.						
Asset classes and asset allocation ranges	The Fund's assets are invested within the following asset allocation ranges: <table border="1"><thead><tr><th>Asset Class</th><th>Investment Range*</th></tr></thead><tbody><tr><td>Global listed securities</td><td>80%-100%</td></tr><tr><td>Cash and cash equivalents</td><td>0% - 20%</td></tr></tbody></table> <p>* The asset classes may temporarily fall outside of these ranges in certain circumstances including, but not limited to, as a result of market movements, applications into or withdrawals from the Fund.</p>	Asset Class	Investment Range*	Global listed securities	80%-100%	Cash and cash equivalents	0% - 20%
Asset Class	Investment Range*						
Global listed securities	80%-100%						
Cash and cash equivalents	0% - 20%						
Investments held	The Fund primarily invests in the securities of companies listed on stock exchanges around the world, but will also have some exposure to cash and cash equivalents. The Fund can use foreign exchange contracts to facilitate settlement of stock purchases. It is not the Responsible Entity's intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets.						
Risk level¹	High.						
Fund performance	For up-to-date information on the performance of the Fund, including daily NAV per Unit, iNAV and performance history, please visit www.magellangroup.com.au .						

¹ The risk level is not a complete assessment of all forms of investment risks. For instance, it does not detail what the size of a negative return could be or the potential for a positive return to be less than the return an investor may expect to meet their objectives.

Derivatives and other investments

The Fund may use derivatives in limited circumstances.

The Fund does not intend to engage in short selling or enter securities lending arrangements.

Borrowing restrictions

The Fund may borrow against all or part of its investment portfolio, provided that, at the time any new borrowing is entered into, the aggregate of those new borrowings and any pre-existing borrowings does not exceed 5% of the Fund's gross asset value of each unit class.

Changes to the Fund

The Responsible Entity has the right to close or terminate the Fund and change the Fund's investment return objective, asset classes and asset allocation ranges, currency strategy (if any) and distribution policy, without prior notice in some cases. The Responsible Entity will inform investors of any material changes to the Fund's details in its next regular communication or as otherwise required by law.

Labour standards and environmental, social or ethical considerations

The Investment Manager believes that issues relating to labour standards and to environmental, social and ethical considerations have the potential to affect the business outcomes of the Fund's investment companies. Accordingly, the Investment Manager reviews labour standards, environmental, social and ethical considerations as part of the risk assessment that is completed when it determines the investment grade status of a company.

9. Fees and other costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the Fund as a whole.

Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Fees and costs summary

Magellan Global Fund – Open Class Units		
Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs		
Management fees and costs¹ The fees and costs for managing your investment	1.35% per annum ²	The management fee is calculated daily based on the proportionate value of the Fund referable to the Open Class Units on that Business Day. An estimate is accrued daily in the NAV per Unit and the fee is payable monthly in arrears from the assets of the Fund referable to the Open Class Units.
Performance fees¹ Amounts deducted from your investment in relation to the performance of the product	Estimated 0.05% per annum ³	Performance fees are 10% of the excess return of Open Class Units in the Fund above the higher of the index relative hurdle (the MSCI World Net Total Return Index (AUD)) and the absolute return hurdle (the yield of 10-year Australian government bonds as at the first Business Day of the Calculation Period pro-rated for the number of days in the Calculation Period) over each 6 monthly period ending 31 December and 30 June (each a “ Calculation Period ”). Performance fees are estimated daily and accrued in the NAV per Unit. Calculation of the fee is finalised and paid at the end of a Calculation Period (30 June and 31 December of each year) from the assets of the Fund referable to the Open Class Units.
Transaction costs The costs incurred by the scheme when buying or selling assets	Nil	Transaction costs such as brokerage and transactional taxes are incurred by the Fund when the Fund acquires and disposes of securities and are paid out of the assets of the Fund as and when incurred. This transaction costs amount is net of any amounts recovered by the buy-sell spread (see ‘Buy-sell spread’ below).
Member activity related fees and costs (fees for services or when your money moves in or out of the product)		
Establishment fee The fee to open your investment	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not applicable
Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme	0.07% buy spread 0.07% sell spread	The buy-sell spread is an allowance to cover the transaction costs that arise from investments and withdrawals from the Fund. It represents an additional cost to investors applying and withdrawing directly from the Fund. The entry and exit unit prices for the Fund include an allowance for the buy-sell spread. For more information, see ‘Buy and sell spreads’.
Withdrawal fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit fee The fee to close your investment	Nil	Not applicable
Switching fee The fee for changing investment options	Nil	Not applicable

1 These fees may be individually negotiated if you are a wholesale client (as defined in the Corporations Act). For further information refer to “Differential fees” in the “Additional explanation of fees and costs” section of this PDS.

2 Inclusive of the net effect of Goods and Services Tax (“**GST**”) (i.e. inclusive of GST, less any reduced input tax credits). For more information about GST, see “Management fees and costs” under the heading “Additional Explanation of Fees and Costs”.

3 The estimated performance fee has been calculated as the simple average of the actual performance fees of the Fund for the previous 5 financial years (up to and including 30 June 2023). The estimated performance fee is inclusive of the estimated net effect of GST (i.e. inclusive of GST, less any reduced input tax credits). Past performance is not necessarily indicative of future performance. The actual performance fee payable (if any) will depend on the performance of the Fund over the relevant period. For more information about performance fees, see “Performance fees” under the heading “Additional Explanation of Fees and Costs”.

Warning: Your licensed financial adviser may also charge you fees for the services they provide. These should be set out in the Statement of Advice given to you by your adviser.

Example of annual fees and costs for the Open Class Units

This table gives an example of how the ongoing annual fees and costs for this product can affect your investment over a 1 year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example ¹ – Magellan Global Fund – Open Class Units	Balance of \$50,000 with a contribution of \$5,000 during year ²	
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs	1.35% p.a.	And , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$675 each year.
PLUS Performance fees	0.05% p.a.	And , you will be charged or have deducted from your investment \$25 in performance fees each year.
PLUS Transaction costs	Nil	And , you will be charged or have deducted from your investment \$0 in transaction costs.
EQUALS Cost of the Open Class Units in the Fund	1.40% ³ p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$7004. What it costs you will depend on the fund you choose and the fees you negotiate.

1 This is an example only and does not take into account any movements in the value of an investor's Open Class Units that may occur over the course of the year or any abnormal costs.

2 This example assumes the \$5,000 contribution occurs at the end of the first year. Fees and costs are calculated using the \$50,000 balance only.

3 Fees and costs are inclusive of the estimated net effect of GST (i.e. inclusive of GST, less any reduced input tax credits). Please see the "Additional Explanation of Fees and Costs" section below for more details.

4 Please note that this example does not capture all the fees and costs that may apply to you such as the buy-sell spread. Please see the "Additional Explanation of Fees and Costs" section below for more details.

Additional Explanation of Fees and Costs

Management fees and costs

The Fund pays a management fee of 1.35% per annum of the Fund's Net Asset Value (before fees) ("**NAV Before Fees**") of the Open Class Units in the Fund to the Responsible Entity for managing the assets of the Fund and overseeing the operations of the Fund.

The management fees help to cover all ordinary fees, costs, charges, expenses and outgoings that are incurred in connection with the Fund (such as administration and accounting costs, registry fees, audit and tax fees, and investor reporting expenses).

Management fees are calculated each Business Day based on the NAV Before Fees of the Open Class Units in the Fund at the end of each Business Day and are payable at the end of each month from the assets of the Fund referable to the Open Class Units. Estimated management fees are reflected in the NAV per Unit.

Under the Fund's constitution, the Responsible Entity is entitled to receive maximum management fees of 1.35% per annum (excluding GST) of the daily NAV (before fees). The management fees stated in this PDS are inclusive of the estimated net effect of GST (i.e. inclusive of GST, less any reduced input tax credits). As the Fund predominantly invests in international securities, the GST impact on the management fees is typically negligible. To the extent the GST impact increases (for example, if the Fund's exposure to Australian securities or the composition of resident unitholders increases, or due to changes in the size of the Fund), the actual management fees may vary from the rates stated above.

In addition to the management fee, where the Fund incurs extraordinary expenses and outgoings, the Responsible Entity may pay for these from the Fund's assets. We may pay extraordinary expenses and outgoings from the Fund's assets because, under the Constitution of the Fund, in addition to the management fee, the Responsible Entity is entitled to be indemnified from the assets of the Fund for any liability properly incurred by us in performing properly any of our duties or exercising any of our powers in relation to the Fund or attempting to do so.

Performance fees

Depending on how well the Open Class Units in the Fund perform, the Responsible Entity may be entitled to a performance fee, payable by the Fund from the assets of the Fund referable to the Open Class Units. Performance fees are calculated with reference to index relative and absolute return performance hurdles and are subject to a high water mark requirement and an overall cap. The details of the calculation methodology and the hurdles are set out below.

The NAV per Unit includes an accrual for an estimate of the performance fee equal to the amount that would be payable if it were the end of a Calculation Period.

Calculation methodology

The Fund's "total return" per Open Class Unit ("**Total Return**") is the dollar movement in its NAV per Unit during the Calculation Period (adjusted for any income or capital distributions and before any accrued performance fees during that Calculation Period). Adjustments will be made for any capital re-organisations such as unit divisions or consolidations. Calculation Periods are 6 months in duration, ending on 30 June and 31 December of each year.

The Fund's "excess return" per Open Class Unit ("**Excess Return**") is its Total Return less the higher of the hurdle returns, expressed in dollar terms.

The performance fee per Open Class Unit is 10% of the Excess Return. The total performance fee is the performance fee per Open Class Unit multiplied by the number of Open Class Units on issue at the end of the Calculation Period, less the Equalisation Reserve described below.

Magellan will only be entitled to a performance fee where the NAV per Unit at the end of the Calculation Period exceeds the applicable high water mark. The high water mark is the NAV per Unit at the end of the most recent Calculation Period for which Magellan was entitled to a performance fee, less any intervening income or capital distribution. Furthermore, the fee to which Magellan is entitled will be subject to a performance fee cap such that the NAV per Unit (after the performance fee has been paid) is not less than the applicable high water mark.

The performance fee described above is inclusive of the estimated net effect of GST (i.e. inclusive of GST, less any reduced input tax credits). As the Fund predominantly invests in international securities, the GST impact on the performance fees for the Fund is currently estimated to be negligible. To the extent the GST impact changes (for example, if the Fund’s exposure to Australian securities increases), the actual performance fees may vary from the rate stated above.

Equalisation Reserve and Open Class Units issued during a Calculation Period

Performance fees are paid on the Excess Return of each Open Class Unit on issue at the end of a Calculation Period, less a unit class level equalization reserve (“**Equalisation Reserve**”). The effect of the Equalisation Reserve is that Magellan will only receive a performance fee in respect of a specific Open Class Unit on performance generated after that Open Class Unit is created. On each Business Day where there is a creation of Open Class Units, including on implementation of the Conversion, the Equalisation Reserve is increased by an amount that represents the performance fee per Open Class Unit calculated immediately prior to the creation of those Open Class Units multiplied by the number of units created (“**Equalisation Adjustment**”). If the accrued performance fee per Open Class Unit on a particular day is nil, there will be no Equalisation Adjustment made to the Equalisation Reserve. The Equalisation Reserve accumulates over a Calculation Period.

The Equalisation Reserve is subject to a ceiling such that the total Equalisation Reserve is the lesser of:

- a) the total of the Equalisation Adjustments calculated on each day of the Calculation Period; and
- b) the total of the Open Class Units created during the Calculation Period multiplied by the prevailing performance fee per Open Class Unit.

The ceiling on the Equalisation Reserve ensures that Magellan’s performance fee entitlement is not less than it would have been had no Open Class Units been created during the Calculation Period.

The exact impact of the performance fee on a particular investor will depend on the price at which the investor has acquired Open Class Units, the total number of Open Class Units created during a Calculation Period, the Excess Return achieved from the start of the Calculation Period to the date where new Open Class Units are created and the subsequent movement in the NAV per Unit to the end of the Calculation Period.

Units cancelled during a Calculation Period

Open Class Units that are either purchased by the Fund on the Securities Exchange or withdrawn directly via an off-market withdrawal request will be cancelled. If there is a net purchase of Open Class Units by the Fund on the Securities Exchange on a day, then the prior day will be treated as the end of the Calculation Period with respect to those Open Class Units. If Open Class Units are withdrawn directly, the day of receipt of a complete off-market withdrawal request will be treated as the end of the Calculation Period with respect to those Open Class Units. The performance fee (if any) with respect to Open Class Units cancelled will become payable to Magellan at that time. A switch out of the Fund will be treated as a withdrawal for the purpose of calculating performance fees.

Performance hurdles Index relative hurdle

The index relative hurdle for the Fund is the return (expressed as a percentage) of the MSCI World Net Total Returns Index (AUD). If an index ceases to be published, the Responsible Entity will nominate an equivalent replacement index.

Absolute return hurdle

The applicable absolute return performance hurdle for the Fund is the published 10-year Australian government bond yield as at the first Business Day of the Calculation Period, pro-rated for the number of days in the Calculation Period.

Transaction costs

Transaction costs such as brokerage and transactional taxes are incurred in relation to the Open Class Units when the Fund acquires and disposes of securities. The transaction costs for the Fund are provided in the “Fees and costs summary” above. These are based on the actual transaction costs incurred by the Fund for the year ended 30 June 2023 and are shown net of any amount recovered by the buy-sell spread charged by the Responsible Entity.

The gross and net transaction costs incurred by the Fund for the year ended 30 June 2023 are provided in the table below.

Total gross transaction costs (% p.a.)	Recovery through buy/sell spread ¹ (% p.a.)	Net transaction costs (% p.a.)	For every \$50,000 you have in the Fund you will likely incur approximately:
0.02%	0.02%	Nil	\$0

¹ Recovery through the buy/sell spread only includes amounts recovered from investors applying and withdrawing directly from the Fund. It does not include any amount the Responsible Entity intends to recover from the prices at which it buys and sells units on the Securities Exchange. For more information, see “Buy and sell spreads”.

The amount of such costs will vary from year to year depending on the volume and value of the trading activity in the Fund, and the value of applications and withdrawals processed.

Transaction costs are paid out of the assets of the Fund referable to the Open Class Units as and when incurred and are not paid to the Responsible Entity.

Transaction costs are an additional cost to the investor where they have not already been recovered by the buy-sell spread charged by the Responsible Entity.

Buy and sell spreads

A portion of the total transaction costs are recovered from investors applying to and withdrawing directly from the Fund. New investments into the Fund or withdrawals from the Fund will typically cause the Fund to incur transaction costs. So that existing investors in the Fund do not bear the transaction costs that arise from these investments and withdrawals, the Responsible Entity includes an allowance to cover these costs in the prices at which it issues and withdraws Open Class Units for investors who transact directly with the Responsible Entity. This allowance to cover transaction costs (sometimes called the 'buy spread' and the 'sell spread') represents an additional cost to investors applying and withdrawing directly from the Fund, but are not fees paid to the Responsible Entity.

For an investor applying for Open Class Units directly with the Responsible Entity, the current buy spread is 0.07% of the NAV per Unit, represented by the difference between the entry price and the NAV per Unit. For an investor applying directly to the Responsible Entity to withdraw their investment in Fund, the current sell spread is 0.07% of the amount that you withdraw, represented as the difference between the exit price and the NAV per Unit. For example, if you invested \$50,000 in the Fund the cost of the buy spread would be \$35, or if you withdrew \$50,000 from your investment the cost of the sell spread would be \$35. We may vary the buy and sell spreads from time to time and prior notice will not ordinarily be provided. Updated information on the buy and sell spreads will be posted on the Fund's website at www.magellangroup.com.au.

For an investor that buys or sells Open Class Units on the Securities Exchange, the price at which they transact may vary from the prevailing iNAV. The prices on the Securities Exchange are determined in the secondary market by market participants who set their own prices at which they wish to buy or sell Open Class Units in the Fund. The difference, or spread, from the prevailing iNAV may represent a cost, or possible benefit, of an investment in the Open Class Units. Where the Responsible Entity buys or sells Open Class Units on the Securities Exchange, the price at which it buys or sells Open Class Units will generally include an allowance to cover transaction costs but will also reflect market conditions and supply and demand for Open Class Units during the Trading Day. As such, the cost of the spread on the Securities Exchange may be different to the cost of the 'buy spread' or 'sell spread' for investors who apply or withdraw directly with the Responsible Entity. Where the Responsible Entity buys or sells Open Class Units, the Open Class Units retains the benefit of this spread.

Stockbroker fees for investors

Investors will incur customary brokerage fees and commissions when buying and selling the Open Class Units on the Securities Exchange. Investors should consult their stockbroker for more information in relation to their fees and charges.

Fees for Indirect Investors

For investors accessing the Fund through a master trust or wrap account, additional fees and costs may apply. These fees and costs are stated in the offer document provided by your master trust or wrap account operator. These are not fees paid to the Responsible Entity.

Payments to platforms

Some master trusts, wrap accounts or other investment administration services ("**Platforms**") charge product access payments fees (as a flat dollar amount each year) for having the Fund included on their investment menus. We may, therefore, pay amounts from the fees we receive to any Platform through which the Fund is made available. As these amounts are paid by us out of our own resources, they are not an additional cost to you.

Financial adviser fees

Your licensed financial adviser may also charge you fees for the services they provide. These should be set out in the Statement of Advice given to you by your financial adviser. The Responsible Entity pays no commissions related to your investments to financial advisers.

Differential fees

A rebate of part of the management fees and performance fees or lower management fees and performance fees may be negotiated with investors who are wholesale clients for the purposes of the Corporations Act. Further information can be obtained by contacting us.

Changes in fees

Fees may increase or decrease for a number of reasons including changes in the competitive, industry and regulatory environments or simply from changes in costs. The Responsible Entity can change fees without an investor's consent but will provide investors with at least 30 days written notice of any fee increase.

Taxation

Taxation information is set out in section 11 of this PDS.

10. About the Securities Exchange Rules and CHES

Securities Exchange Rules

The Open Class Units in the Fund are admitted to quotation on the Securities Exchange under the Securities Exchange Rules. The Securities Exchange Rules are accessible at www.asx.com.au.

The following table sets out the key differences between the Securities Exchange Rules and the Listing Rules.

Requirement	Listing Rules	Securities Exchange Rules
Continuous disclosure	Issuers are subject to continuous disclosure requirements under Listing Rule 3.1 and section 674 of the Corporations Act.	<p>Issuers of products quoted under the Securities Exchange Rules are not subject to the continuous disclosure requirements in Listing Rule 3.1 and section 674 of the Corporations Act. Although the Open Class Units are quoted under the Securities Exchange Rules, as the Fund is also listed as at the date of this PDS, the Responsible Entity will be required to comply with the continuous disclosure requirements in section 674 of the Corporations Act. Following implementation of the Conversion, the Fund will no longer be listed on the Official List of the ASX and the Responsible Entity will continue to be required to comply with the continuous disclosure requirements in section 675 of the Corporations Act. as if the Fund were an unlisted disclosing entity.</p> <p>The Responsible Entity will disclose information which is not generally available and that a reasonable person would expect, if the information were generally available, to have a material effect on the price or value of the units, provided that such information has not already been included in this PDS (as supplemented or amended).</p> <p>The Responsible Entity will publish such information on the announcements platform of Securities Exchange Operator and the Fund's website www.magellangroup.com.au.</p> <p>Under Securities Exchange Rules the Responsible Entity must disclose:</p> <ul style="list-style-type: none"> information about the NAV of the Open Class Units' underlying investments daily and immediately if the Responsible Entity's management activities cause the last reported NAV to move by more than 10%; information about redemptions from the Fund and the number of Open Class Units on issue; information about distributions paid in relation to the Open Class Units; any other information which is required to be disclosed to ASIC under section 675 of the Corporations Act; and any other information that would be required to be disclosed to the Securities Exchange Operator under section 323DA of the Corporations Act if the Open Class Units were admitted under the Listing Rules. <p>In addition, the Responsible Entity must immediately notify the Securities Exchange Operator of any information the non-disclosure of which may lead to a false market in the Open Class Units or which would otherwise affect the price of the Open Class Units.</p>
Periodic disclosure	Issuers are required to disclose half-yearly and annual financial information and reports to the announcements platform of the relevant securities exchange operator.	<p>Issuers of products quoted under the Securities Exchange Rules are not required to disclose half-yearly or annual financial information or reports to the announcements platform of the Securities Exchange Operator.</p> <p>The Responsible Entity will disclose financial information and reports in respect of the Fund to the announcements platform of the Securities Exchange Operator and will also lodge such financial information and reports with ASIC under Chapter 2M of the Corporations Act.</p>
Corporate governance	Listed companies and listed managed investment schemes are subject to notification requirements under the Corporations Act and the Listing Rules relating to takeover bids, buy-backs, change of capital, new issues, restricted securities, disclosure of directors' interests and substantial shareholdings.	Although the Open Class Units are quoted under the Securities Exchange Rules, if the Conversion is implemented, the Fund will no longer be listed on the Official List of the ASX and therefore it will not be subject to certain corporate governance requirements that apply to listed managed investment schemes.
Related party transactions	Chapter 10 of the Listing Rules relates to transactions between an entity and a person in a position to influence the entity and sets out controls over related party transactions.	Chapter 10 of the Listing Rules does not apply to products quoted under the Securities Exchange Rules (such as the Open Class Units). The Responsible Entity will still however, be required to comply with the related party provisions in Chapter 2E of the Corporations Act, as modified by Part 5C.7 of the Corporations Act.
Auditor rotation obligations	Division 5 of Part 2M.4 of the Corporations Act imposes specific rotation obligations on auditors of listed companies and listed managed investment schemes.	<p>Issuers of products quoted under the Securities Exchange Rules are not subject to the auditor rotation requirements in Division 5 of Part 2M.4 of the Corporations Act.</p> <p>An auditor will be appointed by the Responsible Entity to audit the financial statements and Compliance Plan of the Fund.</p>

About CHESS

The Responsible Entity participates in the Clearing House Electronic Sub-register System (“CHESS”). CHESS is a fast and economical clearing and settlement facility which also provides an electronic sub-register service. The Unit Registry has established and will maintain an electronic sub-register with CHESS on behalf of the Responsible Entity.

The Responsible Entity will not issue investors with certificates in respect of Open Class Units held on the CHESS sub-register. Instead, Unitholders will receive a holding statement which will set out the number of Open Class Units they hold. The holding statement will specify the HIN allocated by CHESS or SRN allocated by the Unit Registry.

11. Taxation

Investing in the Fund is likely to have tax consequences. Investors are strongly recommended to seek their own professional tax advice about the applicable Australian tax consequences and, if appropriate, foreign tax consequences that may apply to them based on their particular circumstances.

The taxation information contained in this PDS reflects the income tax legislation in force, and the interpretation of the Australian Taxation Office and the courts, as at the date of issue of this PDS. Taxation laws are subject to continual change and there are reviews in progress that may impact the taxation of trusts and investors.

AMIT Regime

The Fund has elected to become an Attribution Managed Investment Trust (“AMIT”). Accordingly, investors will be subject to tax on the income of the Fund that is attributed to them under the AMIT rules each year ending 30 June. If there is income of the Fund that is not attributed to an investor, the Fund will be subject to tax at the highest marginal rate (plus the Medicare levy) on that non-attributed income. The AMIT rules also allow the Fund to reinvest part or all of your distribution and/or accumulate part or all of the Fund’s income in the Fund, in which case the income of the Fund that is attributed to you (and which must be included in your income tax return) will be more than the total distribution you receive.

Investors will be assessed for tax on the net income and net capital gains generated by the Fund that is attributed to them under the AMIT rules. Investors will receive a tax statement after the end of each financial year (referred to as an AMIT Member Annual Statement) that will provide them with details of the amounts that have been attributed to them by the Fund to assist them in the preparation of their tax return.

The Fund may attribute an estimate of net capital gains generated as a result of withdrawals of Open Class Units and buy-backs of Closed Class Units to the unitholders of the relevant class. Net capital gains that are otherwise generated in the ordinary operations of the Fund, including as a result of portfolio management will be attributed between unit classes and unitholders on a proportionate basis.

If the Fund was to incur a tax loss for a year then the Fund could not attribute that loss to investors. However, subject to the Fund meeting certain conditions, the Fund may be able to recoup such a loss against taxable income of the Fund in subsequent income years.

Depending on an investor’s particular circumstances, they may also be liable to pay capital gains tax (or income tax if they hold their units on revenue account) when they withdraw units.

Taxation of non-resident investors

If a non-resident investor is entitled to taxable income of the Fund, the investor may be subject to Australian tax at the rates applicable to non-residents. If you are a non-resident, you may be entitled to a credit for Australian income tax paid by the Responsible Entity in respect of your tax liability.

Taxation reforms

Reforms to the taxation of trusts are generally ongoing. Investors should seek their own advice and monitor the progress of announcements and proposed legislative changes on the potential impact to their investment.

Quoting your Tax File Number (“TFN”) or an Australian Business Number (“ABN”)

It is not compulsory for investors to quote their TFN, ABN, or exemption details. Should an investor choose to, the TFN/ABN must be provided to the Unit Registry by the Record Date. However, should an investor choose not to provide TFN/ABN details or provide after this date, the Responsible Entity is required to deduct tax from an investor’s distributions. The withholding tax amount is calculated on the amount attributed to you. Collection of TFNs is permitted by taxation and privacy legislation.

GST

Your investment in the Fund will not be subject to goods and services tax.

Foreign Account Tax Compliance Act

Under the Foreign Account Tax Compliance Act (“FATCA”), the Responsible Entity is required to collect and report information about certain investors identified as U.S. tax residents or citizens. In order to comply with its FACTA obligations, the Responsible Entity may request investors to provide certain information (“FATCA Information”).

To the extent that all FATCA Information is obtained, the imposition of US withholding tax on payments of US income or gross proceeds from the sale of particular US securities shall not apply. Although the Responsible Entity attempts to take all reasonable steps to comply with its FATCA obligations and to avoid the imposition of the withholding tax, this outcome is not guaranteed.

Under the terms of the intergovernmental agreement between the US and Australian governments, the Responsible Entity may provide FATCA Information to the Australian Taxation Office (“ATO”). Please be aware that the Responsible Entity may use an investor’s personal information to comply with FATCA and may contact an investor if additional information is required.

Common Reporting Standard

The Common Reporting Standard (“CRS”) requires the Responsible Entity to collect certain information about an investor’s tax residence. If an investor is a tax resident of any country outside Australia, the Responsible Entity may be required to pass certain information about the investor (including account-related information) to the ATO. The ATO may then exchange this information with the tax authorities of another jurisdiction or jurisdictions, pursuant to intergovernmental agreements to exchange financial account information.

Although the CRS does not involve any withholding tax obligations, please be aware that the Responsible Entity may use an investor’s personal information to comply with the CRS obligations, and may contact an investor if additional information is required. For investors who apply for Open Class Units directly with the Responsible Entity, the account opening process cannot be completed until all requested information has been provided.

12. Additional information

Additional disclosure information

As at the date of this PDS and before the Conversion is implemented, the Fund is a disclosing entity and is required to meet the continuous disclosure requirements of the Corporations Act, the Listing Rules and the Securities Exchange Rules; accordingly, the Responsible Entity must:

- prepare and publish on the ASX both yearly and half yearly financial statements accompanied by a Directors' statement and report and an audit or review report; and
- immediately notify ASX of any information concerning the Fund of which it is or becomes aware and which a reasonable person would expect to have a material effect on the price or value of units, subject to certain limited exceptions related mainly to confidential information.

Copies of documents set out above that are lodged by the Fund with ASX may be obtained from ASX, or from the Responsible Entity's website at www.magellangroup.com.au.

Following implementation of the Conversion, the Fund will no longer be listed on the Official List of the ASX and the Responsible Entity will continue to be required to comply with the continuous disclosure requirements in section 675 of the Corporations Act as if the Fund were an unlisted disclosing entity.

Fund's Constitution

The operation of the Fund and the Open Class Units is governed under the law and the Constitution of the Fund which addresses matters such as NAV per Unit, withdrawals, the issue and transfer of Open Class Units, investor meetings, investors' rights, the Responsible Entity's powers to invest, borrow and generally manage the Fund and the Responsible Entity's fee entitlement and right to be indemnified from the Fund's assets.

In accordance with the Constitution, the Responsible Entity may provide investors with the ability to request a withdrawal of their investment in the Open Class Units in the Fund directly with the Responsible Entity in accordance with sections 3 and 4 of this PDS.

The Constitution states that an investor's liability is limited to the amount the investor paid for their Open Class Units, but the courts are yet to determine the effectiveness of provisions of this kind.

The Constitution contains the class rights attached to the Open Class Units and Closed Class Units and the implications for voting, which may be either along class lines or voting as a whole. In some cases, while there are both Open Class Units and Closed Class Units on issue in the Fund, holders of Open Class Units and Closed Class Units will be required to vote separately to approve a matter or proposal before it can be implemented. As a result, if there is more than one class on issue, even if holders of one class supported a resolution by voting in favour of it by the required majority, the resolution would not be approved unless the other class similarly voted in favour.

The Responsible Entity may alter the Constitution if it reasonably considers the amendments will not adversely affect investors' rights. Otherwise, the Responsible Entity must obtain investors' approval at a meeting of investors. The Responsible Entity may retire or be required to retire as Responsible Entity (if investors vote for its removal). No units may be issued after the 80th anniversary of the date of the Constitution. The Responsible Entity may exercise its right to terminate the Open Class Units or the Fund earlier. Investors' rights to requisition, attend and vote at meetings are mainly contained in the Corporations Act.

Investors can inspect a copy of the Constitution at the Responsible Entity's head office or the Responsible Entity will provide a copy free of charge.

Open Class Units rights

A summary of the key rights and obligations attaching to the Open Class Units are set out below. This summary is not exhaustive, nor does it constitute a definitive statement of the terms of the Constitution.

- a) The Responsible Entity must seek approval from holders of the Open Class Units for a Control Transaction (which is essentially a transaction that would give someone a majority interest in the Fund and would be effected by a trust scheme proposed by the Responsible Entity).
- b) Holders of the Open Class Units must approve any matter that requires approval by unitholders under Chapters 10 and 11 of the Listing Rules (for example, a significant change in the activities of the Fund or related party transactions and unit issues to related parties).
- c) Holders of the Open Class Units may, subject to some conditions and qualifications, require the Responsible Entity, by special resolution, to cease the quotation of the Open Class Units under the Securities Exchange Rules, and to withdraw all Open Class Units.

The first approval right is to allow holders of the Open Class Units to separately assess a transaction affecting control of the Fund that is put forward by the Responsible Entity. The second approval right is provided because such transactions will be significant for both unit classes in the Fund (and the interests of each class may not be aligned). The withdrawal right is to simulate a right to wind up the Fund insofar as it relates to holders of Open Class Units.

Approval is by an ordinary resolution (unless the applicable Listing Rules or Securities Exchange Rules require a special resolution) or the consent in writing of 50% of all holders of the Open Class Units.

These rights and other rights conferred on holders of the Open Class Units are protected as class rights (that is, they cannot be altered without approval by special resolution by, or written consent of three quarters of, holders of the Open Class Units).

Closed Class Units in the Fund

The Closed Class Units are a 'closed-ended' class of units issued by the Fund. Closed Class Units are quoted on the official list of ASX under the ASX Listing Rules. Closed Class Units trade under the security code: MGF.

Holders of Closed Class Units have the ability to buy or sell their Closed Class Units on the ASX. Similar to an investment company or investment trust quoted on the official list of ASX, Closed Class Unitholders do not have the ability to apply for or withdraw units directly with the Responsible Entity. The Responsible Entity can only issue or buy back Closed Class Units in accordance with the ASX Listing Rules.

If the Conversion is implemented, all of the Closed Class Units will be redeemed in exchange for new Open Class Units, which will, following implementation of the Conversion, be the only class on issue in the Fund. Please refer to section 3 for further details regarding the Conversion.

ASIC relief

ASIC has granted relief from Section 601GA of the Corporations Act, as modified by ASIC Corporations (Chapter 5C – Miscellaneous Provisions) Instrument 2017/125 (Declaration 5) to allow the constitution of the Fund to include a Listing Rules consistency provision that refers only to Closed Class Units.

ASX waivers/confirmations

The ASX has granted the following:

Waiver from... / Confirmation to...	Summary
Listing Rule 1.1 Condition 5	Waiver to permit Open Class Units being withdrawn in accordance with the Constitution.
Listing Rule 1.1 Condition 6 and Listing Rule 6.2	Waiver such that the Responsible Entity is not required to apply for quotation (as an Listing Rule listing) of the Open Class Units and/or a confirmation that the Open Class Units are not considered by ASX to be the “main class” of securities of the Fund.
Listing Rule 6.12.3	Confirmation that the divestment or withdrawal of any Open Class Units are approved by ASX under Listing Rule 6.12.3.
Listing Rules 7.1 and 3.10.3	Confirmation (or waiver) that Listing Rules 7.1 and 3.10.3 do not apply to the issue of Open Class Units.
Listing Rules 7.6	Confirmation (or waiver) that the issuance of the Open Class Units is not subject to Listing Rule 7.6.
Listing Rules 7.9	Confirmation (or waiver) that the issuance of the Open Class Units is not subject to Listing Rule 7.9.
Listing Rule 7.36	Confirmation that the buy-back of any Open Class Units is not subject to Listing Rule 7.36.
Various Listing Rules	Confirmation (or waiver) that Open Class Unitholders are not required to vote on any resolutions required under the Listing Rules as it relates to the Closed Class Units.
Rule 10A.3.3(b) of Schedule 10A of the Securities Exchange Rules	Confirmation that ASX have no objections under Securities Exchange Rule 10A.3.3(b) with respect to the Open Class Units.
Rule 10A.3.4 of Schedule 10A of the Securities Exchange Rules	Confirmation (or waiver) that Securities Exchange Rule 10A.3.4 would not apply to the Closed Class Units.
Rule 10A.10.8 of Schedule 10A of the Securities Exchange Rules	Waiver to permit the Responsible Entity to appoint BNP Paribas Securities (Asia) Limited as its market making agent under the Securities Exchange Rules.

If the Conversion is implemented, waivers/confirmations with respect to the Closed Class Units will cease to be applicable to the Fund.

Conditions of admission

As part of the Fund’s conditions of admission to quotation on the Securities Exchange under the Securities Exchange Rules, the Responsible Entity has agreed to:

- disclose the Fund’s portfolio holdings on a quarterly basis within two months of the end of each calendar quarter;
- provide liquidity to investors on the Securities Exchange by acting as a buyer and seller of Open Class Units as described in this PDS; and
- provide the iNAV as described in this PDS.

NAV Permitted Discretions Policy

The Responsible Entity’s NAV Permitted Discretions Policy provides further information about how it calculates NAV per Unit. The policy complies with ASIC requirements. The Responsible Entity will observe this policy in relation to the calculation of the NAV per Unit and will record any exercise of discretion outside the scope of the policy. Investors can request a copy of the policy free of charge by calling the Responsible Entity on +61 2 9235 4888.

Change of details

From time to time, you may need to advise us of changes relating to your investment. You may advise us by email, fax or mail of changes relating to:

- your mailing address (investors with SRN holdings only, investors with HIN holdings can only change their address via their stockbroker);
- your licensed financial adviser, if you have nominated one; or
- your election to receive distributions as cash or to reinvest them.

If you need to advise us of changes relating to your nominated bank account (to which we will pay the proceeds of withdrawals and distributions, if you have elected to receive these as cash), we require you to instruct us via mail.

We require your instructions to be signed by the nominated signatory on your account. If you have nominated joint signatories for the account, both should sign notifications of changes in any of your details.

Cooling-off period

Cooling-off rights do not apply to Open Class Units in the Fund however a complaints handling process has been established (see “Complaints resolution” for further information).

Complaints resolution

Should investors have any concerns or complaints, as a first step please contact the Responsible Entity's Complaints Officer on +61 2 9235 4888 and the Responsible Entity will do its best to resolve this concern quickly and fairly. If an issue has not been resolved to your satisfaction, you can lodge a complaint with the Australian Financial Complaints Authority ("AFCA"). AFCA provides fair and independent financial services complaint resolution that is free to consumers.

In writing to: Australian Financial Complaints Authority, GPO Box 3, Melbourne VIC 3001

Past performance

Performance history and Fund size information can be obtained by visiting the Fund's website www.magellangroup.com.au, or view the Fund updates and other announcements on the Securities Exchange at www.asx.com.au. The Fund's past performance is no indication of its future performance. The Fund's returns are not guaranteed.

Custodian

The Northern Trust Company (acting through its Australian branch) ("**Northern Trust**") has been appointed to hold the assets of the Fund under a Custody Agreement. As Custodian, Northern Trust will safe-keep the assets of the Fund, collect the income of the Fund's assets and act on the Responsible Entity's directions to settle the Fund's trades. Northern Trust does not make investment decisions in respect of the Fund's assets that it holds.

Unit Registry

Apex Fund Services Pty Ltd ("**Apex**") has been appointed as the Unit Registry of the Fund under a Registry Services Agreement. The Registry Services Agreement sets out the services provided by the Unit Registry on an ongoing basis together with the service standards.

The role of the Unit Registry is to keep a record of investors in the Fund. This includes information such as the quantity of Open Class Units held, TFNs (if provided), bank account details and details of distribution reinvestment plan participation to the extent the Responsible Entity offers such a plan.

Contact details for Apex can be found in Section 14 of this PDS.

Consents

The following parties have given written consent (which has not been withdrawn at the date of this PDS) to being named in the form and context in which they are named, in this PDS:

- Apex Fund Services Pty Limited; and
- The Northern Trust Company.

Each party named above who has consented to be named in the PDS:

- has not authorised or caused the issue of this PDS;
- does not make or purport to make any statement in the PDS (or any statement on which a statement in the PDS is based) other than as specified; and
- to the maximum extent permitted by law, takes no responsibility for any part of the PDS other than the reference to their name in a statement included in the PDS with their consent as specified.

Anti-money laundering and counter terrorism financing (AML/CTF)

Australia's AML/CTF laws require us to adopt and maintain an AML/CTF Program. A fundamental part of the AML/CTF Program is that we know certain information about investors in the Fund. To meet this legal requirement, we need to collect certain identification information and documentation ("**KYC Documents**") from you if you are a new investor. We may also ask an existing investor to provide KYC Documents as part of a re-identification process to comply with the AML/CTF laws. Processing of applications or withdrawals will be delayed or refused if you do not provide the KYC Documents when requested.

Under the AML/CTF laws, we may be required to submit reports to the Australian Transaction Reports and Analysis Centre ("**AUSTRAC**"). This may include the disclosure of your personal information. We may not be able to tell you when this occurs and, as a result, AUSTRAC may require us to deny you (on a temporary or permanent basis) access to your investment.

This could result in loss of the capital invested, or you may experience significant delays when you wish to transact on your investment. We are not liable for any loss you may suffer because of compliance with the AML/CTF laws.

Privacy policy

As required by law, the Responsible Entity has adopted a privacy policy that governs the collection, storage, use and disclosure of personal information. This includes using an investor's personal information to manage their investment, process any distributions that may be payable and comply with relevant laws.

For example, an investor's personal information may be used to:

- ensure compliance with all applicable regulatory or legal requirements. This includes the requirements of ASIC, the Australian Taxation Office, the Australian Transaction Reports and Analysis Centre, Securities Exchange Operator, CHESS Settlements and other regulatory bodies or relevant exchanges including the requirements of the superannuation law; and
- ensure compliance with the AML/CTF Act, FATCA and with CRS.

The Responsible Entity may be required to disclose some or all of an investor's personal information, for certain purposes (as described under the Privacy Act 1988 (Cth)) to:

- the Fund's service providers, related bodies corporate or other third parties for the purpose of account maintenance and administration and the production and mailing of statements, such as the Unit Registry, Custodian or auditor of the Fund and certain software providers related to the operational management and settlement of the units; or
- related bodies corporate that might not be governed by Australian laws for the purpose of account maintenance and administration.

The Responsible Entity may also disclose an investor's personal information to:

- market products and services to them; and
- improve customer service by providing their personal details to other external service providers (including companies conducting market research).

If any of the disclosures in the previous bullet points require transfer of an investor's personal information outside of Australia, the investor consents to such transfer.

All personal information collected by the Responsible Entity will be collected, used, disclosed and stored by the Responsible Entity in accordance with its privacy policy, a copy of which will be made available on request.

Additional information for New Zealand investors

This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act sets out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.

The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

Additional information for Hong Kong investors

WARNING: The contents of this offer document have not been reviewed or approved by any regulatory authority in Hong Kong. You are advised to exercise caution in relation to the Conversion. If you are in any doubt about any of the contents of this disclosure document, you should obtain independent professional advice.

This disclosure document does not constitute an offer or invitation to the public in Hong Kong to acquire an interest in or participate in (or offer to acquire an interest in or participate in) a collective investment scheme. This disclosure document also does not constitute a prospectus (as defined in section 2(1) of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32 of the Laws of Hong Kong)) or notice, circular, brochure or advertisement offering any securities to the public for subscription or purchase or calculated to invite such offers by the public to subscribe for or purchase any securities, nor is it an advertisement, invitation or document containing an advertisement or invitation falling within the meaning of section 103 of the Securities and Futures Ordinance (Cap 571 of the Laws of Hong Kong).

Accordingly, unless permitted by the securities laws of Hong Kong, no person may issue or cause to be issued this disclosure document in Hong Kong, other than to persons who are "professional investors" (as defined in the Securities and Futures Ordinance (*SFO*) and any rules made thereunder) or in other circumstances that do not result in this Unitholder Booklet constituting an invitation to the public of Hong Kong for the purpose of the *SFO*.

No person may issue or have in its possession for the purposes of issue, this disclosure document or any advertisement, invitation or document relating to the Open Class Units, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than any such advertisement, invitation or document relating to the Open Class Units that are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the Securities and Futures Ordinance and any rules made thereunder.

Copies of this disclosure document may be issued to a limited number of persons in Hong Kong in a manner which does not constitute any issue, circulation or distribution of this disclosure document, or any offer or an invitation in respect of the Open Class Units, to the public in Hong Kong. This disclosure document is for the exclusive use of unitholders of the Fund in connection with the Conversion. No steps have been taken to register or seek authorisation for the issue of this disclosure document in Hong Kong.

This disclosure document is confidential to the person to whom it is addressed and no person to whom a copy of this disclosure document is issued may circulate, distribute, publish, reproduce or disclose (in whole or in part) this disclosure document to any other person in Hong Kong or use for any purpose in Hong Kong other than in connection with consideration of the Conversion by the person to whom this disclosure document is addressed.

Additional information for Singapore investors

This disclosure document and any other document relating to the Conversion or the Open Class Units have not been, and will not be, registered as a prospectus with the Monetary Authority of Singapore and the Conversion is not regulated by any financial supervisory authority under any legislation in Singapore. Accordingly, statutory liabilities in connection with the contents of prospectuses under the Securities and Futures Act 2001 (the *SFA*) will not apply.

This disclosure document and any other document in connection with the offer, sale or distribution, or invitation for subscription, purchase or receipt of Open Class Units may not be offered, sold or distributed, or be made the subject of an invitation for subscription, purchase or receipt, whether directly or indirectly, to persons in Singapore except pursuant to exemptions in Subdivision (4) Division 1, Part 13 of the *SFA* or otherwise pursuant to, and in accordance with the conditions of, any other applicable provisions of the *SFA*.

Any offer is not made to you with a view to Open Class Units being subsequently offered for sale to any other party in Singapore. You are advised to acquaint yourself with the SFA provisions relating to on-sale restrictions in Singapore and comply accordingly.

This disclosure document is being furnished to you on a confidential basis and solely for your information and may not be reproduced, disclosed, or distributed to any other person.

The investment referred to in this disclosure document may not be suitable for you and it is recommended that you consult an independent investment advisor if you are in doubt about such investment. Nothing in this disclosure document constitutes investment, legal, accounting or tax advice or a representation that any investment or strategy is suitable or appropriate to your individual circumstances or otherwise constitutes a personal recommendation to you.

Magellan is not in the business of dealing in securities or holds itself out or purport to hold itself out to be doing so in Singapore. As such, Magellan is neither licensed nor exempted from dealing in securities or carrying out any other regulated activities under the SFA or any other applicable legislation in Singapore.

13. Glossary

Defined terms and other terms used in the PDS	Definition
\$, A\$ or dollar	The lawful currency of Australia.
AFCA	Australian Financial Complaints Authority.

Fees and Costs	The fees and costs of the Fund as described in Section 9 of this PDS.
Fund	Magellan Global Fund (ARSN 126 366 961).
GST	Goods and Services Tax.
HIN	Holder Identification Number.
IDPS	Investor Directed Portfolio Service.
iNAV	Indicative NAV per unit.
Ineligible Foreign Closed Class Unitholder	A Closed Class Unitholder whose address as shown on the register of members on the Conversion record date is in a jurisdiction other than Australia (or its external territories), New Zealand, Hong Kong or Singapore unless the Responsible Entity otherwise determines after being satisfied that it is lawful and not unduly onerous or unduly impracticable for new Open Class Units to be issued to such Closed Class Unitholder on implementation of the Conversion.
Investment Manager	Magellan Asset Management Limited ABN 31 120 593 946; AFS Licence No. 304 301
Listing Rules	The listing rules of the ASX from time to time.
NAV	Net asset value.

NAV Permitted Discretions Policy	The Responsible Entity's policy detailing the discretions exercised in the calculation of NAV per Unit.
NAV per Unit	The NAV per Unit is calculated by dividing the NAV of the Fund by the number of units on issue.
Northern Trust	The Northern Trust Company (acting through its Australian branch).
Open Class Units	An open-ended class of units in the Fund quoted on the ASX (ASX ticker: MGOC) under the Securities Exchange Rules.
PDS	This product disclosure statement as amended or supplemented from time to time.
Record Date	The date used in determining who is entitled to a distribution. Those investors on the register on the Record Date are eligible for the distribution.
Unitholder Booklet	The unitholder booklet issued to holders of Open Class Units and Closed Class Units that is dated the same date as this PDS, and which includes Notices of Meeting and an Explanatory Memorandum relating to the Conversion.
Registry Services Agreement	The Fund Administration Services Agreement in respect of the Fund between the Responsible Entity and the Unit Registry.
Responsible Entity	Magellan Asset Management Limited ABN 31 120 593 946; AFS Licence No. 304 301.
Settlement Rules	The operating rules of ASX Settlement Pty Limited (ABN 49 008 504 532) from time to time.
Securities Exchange	The Australian Securities Exchange operated by ASX.
Securities Exchange Operator	ASX.
Securities Exchange Rules	The operating rules of the Securities Exchange Operator that apply from time to time to the quotation of managed funds and products such as the Open Class Units.
SRN	Securityholder Reference Number.
Trading Day	The day and time during which shares are traded on the Securities Exchange.
Unit Registry	Apex Fund Services operates the registry for the Fund.
